

## Li/SOCl<sub>2</sub> Battery: ER34615H

### Technical data

- Nominal capacity : 19Ah
- Nominal voltage : 3.6V
- Max. continuous current : 150mA
- Max. pulse current : 300mA
- Standard discharge current : 2mA
- Working temperature range : -55°C ~ +85°C
- Weight : 100g

 U. L. Component Recognition( MH46165 )

### Applications

- Smart meter
- Security devices
- Iot devices

International size reference : ER34615H

### Features & Benefits

- Superior long-term reliability
- Low self-discharge rate
- High safety and energy density

### Typical discharge curves at 23°C

### Voltage vs. Current

### Capacity vs. Current (2V cut-off)

### Storage characteristics

#### WARNING:

Fire, explosion and severe burn hazard. Do not recharge, crush, disassemble, heat above 100°C (212°F), incinerate or expose contents to water. Do not solder directly to the cell, use tabbed cell instead.

#### ATTENTION:

Consult FANSO when using batteries at temperature exceeding the -10°C ~ +40°C range. "The above data comes from FANSO's laboratory, any representations in this document concerning performance are for informational purpose only. FANSO Technology Co., Ltd reserves the right to interpret this data."
